

RECYCLING

Shredders

- Choose from the Slayer or Slayer XL
- High torque slow speed shredding solution
- Uniform piece sizing
- Massive application flexibility
- Unparalleled screening capacity

Picking Stations

- The ONLY fully modular Picking Station on the market
- Can be fed by any primary/secondary Crusher Screener/ Trommel/ Drum
- Multiple options available to suit any requirement
- Rapid set up time

Trommels

- The most fuel efficient Trommel available on the market
- Huge stockpiling capacity
- Zero spillage
- Superior 4-wheel traction drive system

Roll-Sizers

- The most efficient mobile mineral sizing solution available
- Huge reduction in fines creation levels
- Eliminates the need for an Impactor or Jaw Crusher
- Robust and durable design
- Massive application flexibility from Coal to Limestone

POWER UNITS

Diesel Genset Powerunit

- Reduce diesel consumption
- Reduce operating costs
- Reduce machine downtime for refuelling and engine servicing
- Can fit with ANY machine from ANY manufacturer

Diesel Hydraulic Powerunit

- Reduce diesel consumption
- Reduce operating costs
- Reduce machine downtime for refuelling and engine servicing
- Can fit with ANY machine from ANY manufacturer

Electric Hydraulic Powerunit

- Switch between electric and hydraulic power easily to power any hydraulic elements on any machine
- Reduce your operating costs
- Reduce machine downtime for refuelling and engine servicing
- Can fit with ANY machine from ANY manufacturer

Innovation at Work

MATERIAL HANDLING

Mini-loader Stockpiler

- MASSIVE time and operational cost savings by eliminating double handling of materials
- Low-level hopper feeder can be fed directly by any small/ medium sized loader
- Can be fed easily by small-medium sized loaders (Bobcats/ Skidsteers)
- Up to 50% cost saving versus using a loading shovel for stockpiling

Mobile Radial Stockpiler

- Low cost radial stacking solution
- Huge windrow stockpiling capacity
- Long-life, low-maintenance design
- Superb manoeuvrability around site

Low-level Feeder Tracked Stacker

- Largest Feeder Stockpiler available in its class
- Massive application flexibility
- Versatile ship/ railcar loading and unloading
- Can be used in conjunction with any Excavator / Loader Crusher / Screener

Tracked Feeder Stockpiler

- Eliminate double handling of material with wheel loader
- Automatic stockpiling program (option) reduces contamination, compaction and degradation
- Dramatically increase Crusher / Screener plant productivity and efficiency
- Huge stockpiling capacities
- 50ft (15m) – 90ft (28m) models available

Radial Tracked Stockpiler

- Radial Tracked Stockpiler allowing MASSIVE stockpiling capacity
- 360 continuous rotation for superior manoeuvrability
- Eliminates material segregation
- Eliminate / reduce need for Wheel Loader on-site

Tracked Stockpiler

- Largest Feeder Stockpiler available in its class
- Massive application flexibility
- Versatile ship/ railcar loading and unloading
- Can be used in conjunction with any Excavator / Loader Crusher / Screener

Hopper-Feeder Stockpiler

- Superb stockpiling capabilities in difficult materials such as mulch
- Dramatically increase Crusher / Screener plant productivity and efficiency
- Stockpile rates 100tph - 1000tph
- Rapid set up time
- 20ft (6m) – 100ft (30m) models available

Tracked Loader

- High volume capacity
- 180 radial swing conveyor
- Extra wide hopper to facilitate wheel loader filling
- Unrivalled flexibility when loading vessels
