RADIAL TRUCK UNLOADER

RTU 220

- Unload directly from articulated road lorries and dump trucks
- Feed into train wagons, barges, ships, and hoppers.
- Increases cycle times and on-site production.
- Regulates material to Screens and Crushers
- Capacity to convey up to 1000 tonnes per hour (1102UST)
- Optional Radial conveyor.
- Highly efficient hydraulic drive system
- Unrivalled full efficiency
- Fully tracked for on-site manoeuvrability
- Global After Sales Support

Innovation at Work

OPTIONS

- Belt Weight Scales
- Hydraulic Extended Hooper Wings
- Various Radial Conveyor Lengths
- Anti-Roll Backs
- Wrap-around Pull Cord
- Dual Power
- Vibrating Motor
- Belt: (Chevron / Heavy Duty)
- Feedboot Rubber Lining
- Feedboot Rock shelf
- Scraper Upgrade

FEATURES

- Built with tracks for stability and easy manoeuvrability around site
- User friendly control system
- Massive 23m³ (30yd³) hopper capacity increases cycle times and on-site production.
- Regulates material to Screens and Crushers Heavy-duty design
- Low power consumption: 18 ltrs p/hr (4.7 US Gallons)
- Capacity to convey up to 1000 tonnes per hour (1102UST) with a maximum feed size of 600mm (23").
- Optional Radial conveyor.

APPLICATIONS

- Coal
- Grains
- Fertilisers
- Iron ore
- Copper ore
- Gold ore
- Bauxite
- Aggregates
- Woodchips
- Wood pellets
- Sulphur
- Recycled Concrete
- Tarmac
