

PIT STOP DRUM

WE ARE NOW SUPPLYING OUR LATEST PRODUCT; THE PIT STOP DRUM/PULLEY

The Pit Stop Drum/Pulley is a modular type drum system that can be used to create tail, snub, and drive configurations rapidly.

The system provides the benefit of 'off the shelf' shaft ends that can be dispatched in the event of a bearing failure or can be held by sites on stock if down time is a critical factor.

Drums and shafts are available in standard and heavy-duty, the standard range of drums comprise of diameters from 200-400mm with heavy duty comprising of 324-500mm, standard shafts from 30-70mm diameter and heavy-duty from 60-100mm diameter, all drums are manufactured complete with heavy-duty through tubes for the shaft location thus creating a "through shaft".
